for President of Kasetsart University

**Kasetsart University Sriracha Campus Scholarship Program for ASEAN+6 and European Students**  
**Academic Year 2025**

---

**Rationale:**

Currently, the competition rate between Thai universities has increased due to the declining birth rate of the Thai population. This trend is evident from the birth rate data for the years 2013 - 2022 provided by The Bureau of Registration Administration (BORA), Department of Provincial Administration (DoPA) (accessed on January 24, 2025, online). This decline in birth rates also leads to a decrease in the number of students entering universities. Therefore, Thai universities need to expand their target groups from focusing solely on domestic students to also include international students.

The Sriracha Campus has recognized the importance of this issue. In alignment with Kasetsart University's policy of international development, the "Kasetsart University Sriracha Campus Scholarship Program" was initiated for the academic years 2023 and 2024, and the program will continue in the academic year 2025. The objective is to increase visibility for Kasetsart University and the Sriracha Campus on the international stage. In the past two years, the Kasetsart University's recognition has increased, as seen from the rise in scholarship applicants from 243 in 2023 to 460 in 2024.

Additionally, the program aims to increase the number of international students at Kasetsart University to enhance its ranking in the "internationalization" dimension according to the World University Ranking standards. In the past two years, this program has resulted in an increase of 30 international students at Kasetsart University Sriracha Campus.

Country	Bachelor (Person)	Master (Person)
Cambodia	7	5
Philippines	1	-
Myanmar	13	1
India	1	-
Indonesia	2	-

Furthermore, to enhance the international atmosphere at the Sriracha Campus and to foster good relationships between partner higher education institutions and Kasetsart University for future collaborations in other areas.
